

1E11 07:52 Aberdeen - London

King's Cross

A scenario for DTG's Fife Circle.

Drive LNER's 800110 on 1A79, 07:52 Aberdeen - London King's Cross, from Thornton North Junction to Edinburgh Waverley on a very chilly morning in December 2022. You are already delayed due to signalling issues in the Aberdeen area, but will this be the end of your troubles?

You require the following DLC:

- **Fife Circle Line: Edinburgh - Dunfermline (Steam)**
- **Great Eastern Main Line London-Ipswich (Steam)**
- **ScotRail Class 380 or Glasgow Airport Rail Link (Steam)**

- **AP Class 158 (Cummins) Enhancement Pack**
- **AP Class 170 Enhancement Pack**
- **AP Class 800 Enhancement Pack**
- ***AP Sky & Weather Pack (If you don't have this, a default, standard weather pattern will be applied)***

<https://www.armstrongpowerhouse.com/>

- ***Suburban Glasgow Class 334 Reskin Pack***

<http://www.suburban-glasgow.org.uk/home/downloads/reskin-downloads/>

(Anything with a * next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts, but you *will* see less AI about)

Please Note

- **Reskinned Class 360s substitute for Class 334s, due to them not being available for TS yet.**
- **380s substitute for 385s due to there not being a 385 for TS. An Abellio ScotRail Class reskin is no longer available.**

**If you do have any issues, please don't hesitate to let me know at:
WestieRailScenarios@outlook.com**

**If you enjoyed this scenario, or have any feedback, please let me know via my
Facebook page: <https://www.facebook.com/WestieRail-75B-Scenarios-104621564617517/>**

Unfortunately, I can't be held responsible for any damage caused to your TS install, or your computer, although this is highly unlikely

Finally, enjoy!
