

1F70 22:25 London St Pancras International - Dover Priory

A scenario for Danny's London Victoria + St Pancras to Dover + Ramsgate (Via Faversham)

Drive Southeastern 395014 from London St Pancras to Dover Priory on a wet night in May 2020. Due to the time of night and the weather, this run will require your full concentration, you'll need to have your wits about you. Also, due to engineering works, you are diverted via Canterbury East, something which rarely happens!

You require the following DLC:

- **North London & Goblin to Faversham, Ramsgate & Dover (Steam Workshop)**
- **Chatham Main Line: London Victoria & Blackfriars - Dover & Ramsgate (Steam)**
- **Chatham Main & Medway Valley Lines (Steam)**
- **London - Faversham High Speed (Steam)**

(Anything with a * next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts, but you *will* see less AI about)

(PTO)

Big thanks to Simon Brugel (Cynx) <https://sbrugel.com/game-content.html> for help with scripting.

To install, simply copy the included Content folder into your Railworks folder.
