

2H02 16:28 Blackpool North – Hazel Grove

A scenario for Just Trains Midland Main Line: Hope Valley Extension

Drive Northern Trains 319374 from Manchester Piccadilly to its destination of Hazel Grove on a fine evening in July 2021. You'll have lots of Rush Hour traffic to content with as you thread your way out of Manchester. You can try your best to keep to time, but this is unlikely on the Castlefield Corridor and beyond!

You require the following DLC (and their dependencies, which may not be listed below)

- ***Birmingham Cross City Line (Steam)***
- ***South Wales Coastal: Bristol – Swansea (Steam)***
- ***Freightliner Class 70 (Steam)***

- **Just Trains Midland Main Line: Sheffield - Derby**
- **Just Trains Midland Main Line: Hope Valley Extension**
- ***Just Trains Voyager Advanced 2019***

(Anything with a * next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts, but you *will* see much less AI about. For the full experience, please make sure you own all of the requirements)

Please Note

- **Your timings, as well as the timings of AI trains, are based on the July 2021 timetable.**
- **Please try to stick as closely as possible to speed limits so that you get the desired effects from this scenario.**
- **There isn't as large of a variety of AI as I would have liked, due to a known bug with this route.**
- **You will notice less (if any) stock stabled in depots and sidings. This is to help with FPS.**

To install, simply copy the included Content and Assets folders into your Railworks folder.
