

2S71 17:14 Sheffield - Manchester Piccadilly

A scenario for Just Trains' Midland Main Line & Hope Valley Extensions.

Drive Northern Trains' 150144 and 150214 on 2S71, 17:18 Sheffield - Manchester Piccadilly, on a sunny Friday evening in March 2021. You will be calling at most stations en-route and (typically for a Friday) you will be battling with a few other late running services. This may be your last trip of the day, but you'll still need to keep your concentration levels up!

You require the following DLC:

- **Birmingham Cross City (Steam)**
- **JustTrains Midland Main Line: Sheffield - Derby**
- **JustTrains Midland Main Line: Hope Valley Extension**
- ***JustTrains Class 222 Advanced 2019***
- ***JustTrains Voyager Advanced 2019***

(Anything with a * next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts, but you *will* see much less AI about. For the full experience, please make sure you own all of the requirements and check the individual requirements of each above.)

Please Note

- **Your timings, as well as the timings of AI trains, are based on the March 2021 Timetable.**
- **Please try to stick as closely as possible to speed limits so that you get the desired effects from this scenario.**
- **You will notice fewer, if any trains stabled in yards and depots, this is to save FPS.**
- **I have tried my best to match other Unit numbers with their correct and current livery as per real life, using Resources available. Some Northern liveries may be slightly outdated, due to newer (post public takeover) NT reskins not being available yet (please let me know if you know of any). If you notice one that's in the incorrect livery, or with incorrect numbering, please contact me (including where to find the reskin if possible please), and I will sort it out ASAP.**

To install, simply copy the included Content and Assets folders into your Railworks folder.
