(Anything with a \* next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts, but you \*will\* see much less AI about)

**\*Please Note\***

- Your timings, as well as the timings of AI trains, are based on the December 2021 - May 2022 timetable.
- Class 156s stand in for Class 195s, due to this not yet being in game.
- I have tried my best to match other Unit numbers with their correct and current livery as per real life, using resources available. If you notice one that's in the incorrect livery with incorrect numbering or with incorrect lights, please contact me, and I will sort it out ASAP.
