

# Ffestiniog & Welsh Highland Railways Scenario Pack

**A set of 6 scenarios by WestieRail 75B for Steve Pontin's Ffestiniog & Welsh Highland Railways.**

**Set over 2 sunny days in August 2022, there are 6 scenarios included, each covering one return trip of three named services; 'The Harbourmaster' (with Garratt No.87), 'Mountain Spirit' (with Double Fairlie Merredin Emrys), and 'Snowdonia Star' (with Garratt No.130). Each scenario will test your ability to drive each loco with care and precision, in order to keep to time and keep your holidaying passengers happy!**

**You require the following DLC:**

- **Ffestiniog & Welsh Highland Railway Route**

**(Anything with a \* next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts. For the full experience, please make sure you own all of the requirements.)**

**\*Please note\***

- **I have spend much time meticulously researching real life coach formations (amongst other things) for these scenarios. Not all coaches in real world formations are available for Train Sim, so there are some stand ins. For example, Coach 150 appears twice in the same consist, as there is no 152 available. If coach formations are updated in real life, I'll endeavour to update them in these scenarios when I can.**

**To install, simply the Content folder into your Railworks install folder.**

**If you enjoyed this scenario, have any feedback or any issues/bugs then please let me know via my Facebook page:**
