

# **R1649 16:48 St.Moritz - Tirano**

**A scenario for Thomson/Rivet Games/Danny's Bernina Pass - St.Moritz - Tirano**

**Drive Rhätische Bahn's ABe 8/12 'Allegra' No.3513 (with EW coaches) from St.Moritz - Tirano on a sunny afternoon in June 2023. This route is very popular with tourists and trainspotters alike. Because of the scenery, it's easy to see why! You have a challenging run ahead of you with many request stops. Swiss railways are known for punctuality, so you can't let them down!**

**You require the following DLC:**

- **Danny Bernina Pass - St.Moritz to Tirano (Steam Workshop)**
- Thomson Interactive **Bernina Pass: St Moritz - Poschiavo (Steam)**
- Thomson Interactive/**Rivet Games Bernina Line: Poschiavo - Tirano (Steam)**
- Thomson Interactive **RHB Enhancement Pack 01 (Steam)**
- Thomson Interactive **RHB Enhancement Pack 02 (Steam)**
- **\*Thomson Interactive RHB Enhancement Pack 03 (Steam)\***
- **\*Thomson Interactive RHB Enhancement Pack 04 (Steam)\***

(Anything with a \* next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts, but you \*will\* see much less AI about. For the full experience, please make sure you own all of the requirements.)

**\*Please Note\***

- **Your timings, as well as the timings of AI trains, are based on the June 2023 timetable. I used the useful ÖBB Scotty app for these.**
- **Please try to stick as closely as possible to speed limits so that you get the desired effects from this scenario.**
- **This is my first Swiss scenario, but I have tried my best to match formations with their real life counterparts (both from my own photos and from the very useful VagonWeb (<https://www.vagonweb.cz/razeni/?&lang=en>). Feel free to let me know if any need altering!**
- **In Switzerland, trains mostly pass on the left at passing points. There are some exceptions, such as at Cavaglia. The dispatcher refuses to work with this routing though at this location!**

**To install, simply copy the included Content and Assets folders into your Railworks folder.**

**If you do have any issues, or any feedback, please don't hesitate to let me know at: [WestieRailScenarios@outlook.co.uk](mailto:WestieRailScenarios@outlook.co.uk), or via my Facebook page: <https://www.facebook.com/WestieRail-75B-Scenarios-104621564617517/>**

**Thanks to Simon Brugel/Cynx for his help with scripting. Check out his scenarios at: <https://sbrugel.com/game-content.html>**

**\*Unfortunately, I can't be held responsible for any damage caused to your Train Simulator installation, or your computer, although this is highly unlikely\***

**Finally, enjoy!**
