

The Full Circle (2K09 & 2G10)

A 2-Part scenario by WestieRail 75B, for DTG's Fife Circle

You are in charge of 158817 or 170452 (with 170452 or 158817 coupled to the rear), in this odd formation, operated by Abellio ScotRail on a full journey around the Fife Circle as 2K09 16:38 Edinburgh Waverley – Glenrothes with Thornton (Via Kirkcaldy), and 2G10 17:49 Glenrothes with Thornton – Edinburgh Waverley (Via Dunfermline Town). It is a lovely Spring evening, so enjoy the scenery, but don't become too complacent, as the timetable is tight!

You require the following DLC:

- **Fife Circle Line: Edinburgh - Dunfermline (Steam)**
- **Great Eastern Main Line London-Ipswich (Steam)**
- ***East Coast Main Line London-Peterborough Route (Steam)***
- ***CrossCountry Class 220 'Voyager' DEMU (Steam)***
- ***Train Simulator Academy (Steam)***
- **ScotRail Class 380 or Glasgow Airport Rail Link (Steam)**
- ***WCML South: London Euston - Birmingham (Steam)***

- **AP Class 158 (Cummins) Enhancement Pack**
- **AP Class 170 Enhancement Pack**
- ***AP Sky & Weather Pack (If you don't have this, a default, standard weather pattern will be applied)***

(Anything with a * next to it indicates that it's not essential to the running of the scenario, you can press F2 and 'OK' when the scenario starts, but you *will* see less AI about)

Please Note

- **The timings of your train, and the timings of all AI services, are from the *FULL* post-May 2020 timetable.**
- **You can choose whether you'd like 158817 or 170452 to lead the formation. Simply choose which from the download, then copy the Content folder into your Railworks folder.**
- **The BSI Couplings on the 158s & 170s are compatible (and the units run in multiple) in real life. In TS, the only limitations that I have found are visual ones. Only that the destination screens on the 158 and 170 won't match, and the coupler objects aren't properly represented, but this won't affect the functionality.**
- **Reskinned Class 360s substitute for Class 334s, due to them not being available for TS yet.**
- **2 Hitachi/White Class 800s represents 2 AI LNER Class 802 services due to the necessity for them to run on diesel power.**
- **380s substitute for 385s due to there not being a 385 for TS.**
